**QuestSoft Named 2014 Lenders' Choice Award Recipient by *Mortgage Technology Magazine***

**LAGUNA HILLS, CALIF., Nov. 19, 2014** – QuestSoft, a provider of [automated mortgage compliance software](#), has been named the 2014 Lenders' Choice by *Mortgage Technology* magazine. QuestSoft was one of three companies nominated for the prestigious award.

*Mortgage Technology* magazine's Lenders' Choice Award commends the technology provider that offers the best customer service, value proposition and overall user experience. The winner is selected each year by a vote of industry professionals from mortgage lending and servicing institutions. This is the first year that the award has been based on thousands of votes cast by the entire mortgage lending industry rather than a small subset of about 20 of the top lenders in the nation. QuestSoft was recognized at the 2014 *Mortgage Technology Awards Ceremony* on Sunday, Oct. 19 at the Mandalay Bay Resort and Casino in Las Vegas.

QuestSoft was awarded for its exceptional customer service and overall impact on the industry. In addition, the software provider was recognized for industry innovation and comprehensive automated compliance solutions. QuestSoft's Compliance EAGLE software offers compliance solutions to ease regulatory standards, including Home Mortgage Disclosure Act (HMDA), NMLS Licensing, LEF reviews, Real Estate Settlement Procedures Act (RESPA) fee tolerances, Truth in Lending Act (TILA) and Fair Lending solutions.

"We are honored to be presented with this year's *Mortgage Technology* Lenders' Choice Award and to be recognized as a provider that industry experts know and trust to fulfill their compliance needs," said Leonard Ryan, founder and president of QuestSoft. "The criterion of the award translates to me as the industry's most loved vendor. I am very grateful for the votes of confidence from our customer base of 1,800 lenders nationwide that felt so strongly to participate."

**About QuestSoft**

Laguna Hills, Calif.-based QuestSoft is an established provider of comprehensive and automated compliance software and services to the mortgage, banking and credit union industries. The company's products enable more than 1,800 banks, credit unions and mortgage companies to simplify the collection, analysis, compilation and reporting of key lending regulatory report data.
